Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-5, 7-12 and 14 are rejected under 35 U.S.C. 102(b) as being anticipated by Sibole (767,175).
3. Regarding claims 1 and 8, Sibole discloses a container capable of being used as a basket formed from a portion of a tree retaining a natural outer form of the portion of the tree.
4. Regarding claims 2 and 9, the natural outer form is an inner wood section of the tree that lies directly beneath a bark section and can be seen by peeling off the bark section.
5. Regarding claims 3 and 10, the natural outer form is a bark section of the portion of the tree.
6. Regarding claims 4, 5, 11 and 12, the portion of the tree can be a trunk portion or a branch portion. The basket, as seen in Figure 1, could be either a section of a trunk or a section of a branch depending on the size of the basket desired.
7. Regarding claims 7 and 14, the bottom of the basket as defined as the bottom end of wood section (A) is formed by cutting the wood section off of the tree.

Claim Rejections - 35 USC § 103

8. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

9. Claims 6 and 13 are rejected under 35 U.S.C. 103(a) as being unpatentable over Sibole in view of Barnes (3,506,154). Sibole disclosed the invention except for handles integrally formed with the basket. Barnes discloses a basket with handles (32) integrally formed in the walls of the basket. It would have been obvious to one of ordinary skill in the art at the time the invention was made to have incorporated the use of handles as disclosed by Barnes in the basket disclosed by Sibole to provide a convenient method of lifting the basket.
